

Viewing the EDLP digital learning resources for Grade 1-4

MAURITIUS INSTITUTE OF EDUCATION

The CODL Team

The EDLP is one of the key initiatives under the Nine-Years Basic Schooling reforms for the primary sector. The aim of the programme is to enhance the teaching and learning processes in the primary grades through the introduction of a digital classroom eco-system. The digital classroom eco-system includes tablets, projector and screen and a charging rack on the hardware side. The eco-system also includes several digital learning resources designed by the digitization of curriculum team of the Mauritius Institute of Education (MIE).

Kotobee Reader

The FaceBook Page “Mauritius Home Academy” provides you access to the digital learning resources (General Purpose, KM and Arabic) for Grade 1, 2, 3 and 4 (first term).

You will need to download and install the tool, Kotobee Reader, in order to explore the contents for EDLP. Kotobee Reader is an EPUB file reader that will enable you to open interactive ebooks and EPUB files. The interactive resources available can only be opened using this software. Other software may not load the interactive resources. Follow the link below to download the Kotobee Reader to open the sample Epub files provided.

<https://www.kotobee.com/products/reader>

Please view the video on the youtube link https://youtu.be/T9_Pilf4Hao which will provide you with more information on Kotobee Reader.

You will have to pay attention to the following details in the video:

- How to navigate within the e-book
- The icons indicating digital learning resources
- How to open and close a digital learning resource
- Instructions in the digital learning resources
- The different types of digital learning resources

Thanking you.

Stay safe.

The CODL Team, MIE
